

United States Senate

731 HART SENATE OFFICE BUILDING
WASHINGTON, DC 20510-2204

May 5, 2022

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2023 Energy and Water Development appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

A handwritten signature in blue ink that reads "Debbie Stabenow". The signature is written in a cursive style with a large initial "D" and a long horizontal stroke at the end.

Debbie Stabenow
United States Senator

**Stabenow, Debbie(D-MI) Energy and Water Development
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Dorr Township	Funding will be used to develop a 250-acre Sustainable Business Park where businesses geared towards turning landfill-bound waste materials into viable products will locate. The Kent County Department of Public Works estimates 75% of the waste it processes each year could be reused, recycled, or converted into usable products.	Allegan County MI	\$7,000
Detroit Employment Solutions Corporation	Funding will be used to bolster the City of Detroit's cybersecurity defense technology. This funding will go towards securing and updating high-risk systems, conducting security assessments, and implementing technologies that reduce the risk of cyberattacks.	Detroit MI	\$7,500
City of Flint	Funding will be used to purchase a blower – to be utilized in the wastewater treatment process – that runs off of renewable biogas. This will save the city money and reduce its carbon footprint.	Flint MI	\$1,000
Army Corps of Engineers	Funding will be used to investigate and study flood protection along the Grand River in downtown Grand Rapids. The study will focus on improvements to Sixth Street and Canal Parks between the Grand River and Monroe Ave NW that would mitigate flood risks, expand public access to the river, and enhance the city's economic vitality.	Grand Rapids MI	\$100
City of Grand Rapids	Funding will be used to install solar panels on the Butterworth Landfill – a 190-acre closed Superfund site.	Grand Rapids MI	\$20,000
Army Corps of Engineers	Funding will be used to separate four blocks of combined sewers along two streets in downtown Lansing. The project will help the city eliminate 95% of its combined sewer overflows by 2032 and 100% by 2035.	Lansing MI	\$6,000
Army Corps of Engineers	Funding will be used by the U.S. Army Corps of Engineers to conduct a feasibility study into potential harbor infrastructure improvements in the Menominee-Marquette Harbor.	Menominee MI	\$600
Northwestern Michigan College	Funding will be used to replace Northwestern Michigan College's centralized steam power plant with a new distributed geothermal energy system. The proposed system would serve six campus buildings, reduce costs, and lower carbon emissions.	Traverse City MI	\$2,700
Army Corps of Engineers	Funding will be used to conduct a study and develop a plan to mitigate the risk of basement and surface flooding. A long-term flood mitigation plan is necessary to mitigate flooding impacts of unprecedented rainfall and forecasted increases in rainfall intensity for the residents and businesses within GLWA's service area.	Wayne County MI	\$3,000
